Installation guide NPB-L&NPB-M Bumblebee Pedalboard

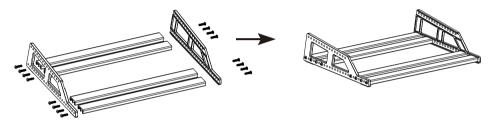

As a pedal brand, and effect developer, how could we forget pedalboard? With many years experience of pedalboards, we're looking for something innovative and intelligent. Light, adjustable, reliable are the most important things for pedalboard.

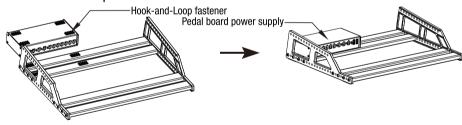

Before we always suffered while we putted pedals in 2 or 3 lines on the pedalboard at the same frame. It didn't make sense while you want to stomp the pedals in 2nd row. The height is key point.

So we design Bumblebee pedalboard as free adjustable tracks in 2 levels. You could setup the frame size as you want and even hide the power supply between 2 layers. We also offer you cable organizer to arrange your patch cables, DC power wires under the tracks. The other advantage is 3M dual lock, unlike the traditional velcro, dual lock could make your pedals steady and look organized. While you want to sell it, it's much easier to clean than the velcro. By the way, the bag is water repellent.

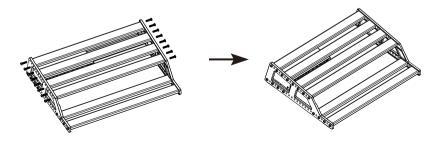

1 Set up the base layer. ATTENTION: DO NOT TIGHTEN UP ALL SCREWS YET.

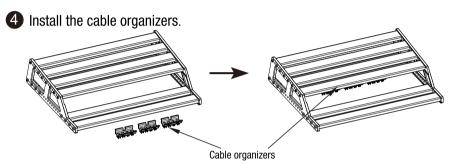

Set up your pedal board power supply (Not included) with the included Hook-and-Loop fastener.

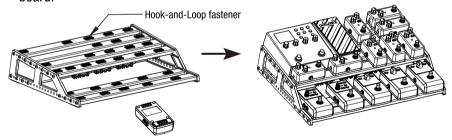

3 Set up the upper layer and tighten up all screws.

5 Use the included Hook-and-Loop fastener to fix your pedal chain onto the pedal board.

NPB-L : 320(L)x445(W)x90(H)mm (For 10-12 pedals) **NPB-M** : 243(L)x445(W)x90(H)mm (For 8-10 pedals)

NOTE: NPB-L and NPB-M shares the same set-up procedures, NPB-L comes with 2 extra upper layer crossbeams.

安装指南 NPB-L&NPB-M 大黄蜂效果器板

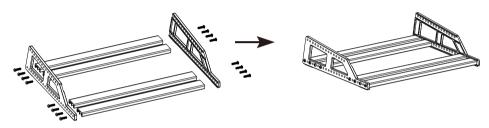

身为效果器品牌以及开发者,我们如何能忘却效果器板呢?有诸多年效果器板的使用经验,我们期许有更聪明的创新。效果器板最重要的要点:轻,可调性,可信赖。

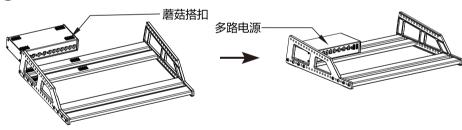

以往我们对于效果器在同一平面摆放两排、三排感到痛苦。当你要踩第二排效果器的时候一点都不合理,高度是关键!

所以我们设计"大黄蜂"效果器板带有两层可调整轨道,你可以依据需求设定板面尺寸甚至将供电电源隐藏在两层之间。我们也提供整线器让你可以将短导线以及电源线固定在轨道下方。另外一点,我们采用3M Dula Lock,有 别于传统的魔术贴,Dual Lock可以让你的效果器非常稳固的固定在效果器板上而且看起來清爽。当你想把效果器买掉时,Dula Lock也比魔术贴好清理。順带一提,我们配的包还是防水的。

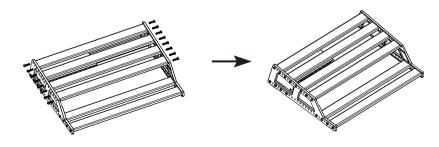

安装支架下层板。注意:螺丝不要拧太紧。

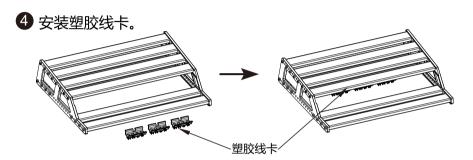

2 贴上蘑菇搭扣,固定效果器多路电源(多路电源自备)。

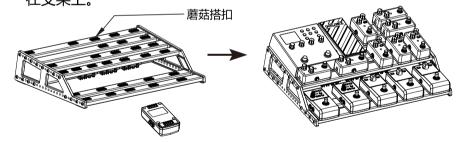

3 安装支架上层板,上层板安装完毕后拧紧全部螺丝。

5 在支架和您所使用的效果器上贴上蘑菇搭扣,并将效果器固定 在支架上。

NPB-L: 320(L)x445(W)x90(H)mm (适用于10-12块单块效果器) NPB-M: 243(L)x445(W)x90(H)mm (适用于8-10块单块效果器) 注:NPB-L和NPB-M安装方式相同,NPB-M少两根上层板。

有关产品中所含有害物质的说明 本資料就本公司产品中所含的特定有害物质及其安全性予以说明。 本資料通用于2007年3月1日以后本公司所制造的产品。

此标志适用于在中国国内销售的电子信息产品,表示环保使用期限的年数。 所谓环保使用期限是指在制造日起的规定期限内,产品中所含的有害物质不 致引起环境污染,不会对人身、财产造成严重的不良影响。环保使用期限仅在 遵照产品使用说明,正确使用产品的条件下才有效。不当的使用,将会导致 有宝物质泄湿的危险
