

# LPA1

The LPA1 is a professional studio arm designed for mounting microphones and other studio equipment in any recording or broadcasting setup. Its compact, low-profile form keeps your area unobstructed, sitting neatly below the camera's line of sight while accommodating a wide range of end-address and side-address microphones. With smooth, silent movement for precise positioning and integrated cable management for a clean workspace, the LPA1 is the ultimate solution for audio recording, live streaming, and podcasting in the studio or at home.

- Professional low-profile studio arm
- Extended horizontal reach of 750mm with wide vertical adjustment (90° up / 60° down)
- Smooth 360° rotation for precise, flexible positioning
- Supports microphones up to 2kg (4.4 lbs)
- Integrated cable management keeps your setup clean and clutter-free
- Effortless desk mounting with included clamp (up to 70mm)
- Universal thread compatibility (1/4" UNC, 3/8" UNC, and 5/8" UNS) for maximum flexibility
